## EDUCATION

| Degree/Certificate | Institute/Board | CGPA/Percentage | Year |
|---|---|---|---|
| B.Tech. ME | Indian Institute of Technology Indore | 7.82(Current) | 2019-Present |
| Senior Secondary | CBSE Board | 80% | 2019 |
| Secondary Board | CBSE Board | 10.0 | 2017 |

## TECHNICAL SKILLS

- **Development**: HTML, CSS, Bootstrap, Bulma, Javascript, Flask with Python, Dart, Ruby.
- **Data Structure and Algorithm**: I have solved 950+ Coding Problems till now.
- **Competitive Programming**: 4 Star(1857 Rating) on CodeChef and Specialist(1550 Rating) On CodeForces.
- **Tools/Frameworks**: QwikLab
- **Database**: MySql
- **Operating Systems**: Windows, Linux*                                            *Elementary proficiency*

## PROJECTS AND EXPERIENCE

- **Google Cloud**                                                                   *Oct/20-Nov/20*
  *Stack: Cloud Computing.*                                                          Link
  – I have completed 7 Quest and Track 1 of Google Cloud on Qwiklabs Platform.

- **Web-Player**                                                                     *Nov/20-Present*
  *Stack: MERN Stack and Spotify API*                                                Code
  – Its a team project on which I am currently working, after completion of this project a user can excess unlimited music with Blockbuster Features.

- **PORTFOLIO**                                                                      *Sept/20-Present*
  *Stack: HTML, CSS, Bootstrap, Bulma,Javascript, Flask with Python, MySQL Database*  Code
  – I have made a Portfolio project with FrontEnd HTML, CSS, Bootstrap, Bulma (Style), Javascript, And BackEnd Python Flask, MySQL Database

- **LiveCricket**                                                                    *Oct/20*
  *Stack: React,Material-UI, CricAPI*                                                Code
  – This is a live-cricket website by which a user can see the upcoming matches details and current matches score.

- **Score Keeper For Game**                                                          *Oct/20*
  *Stack: HTML, Bulma, Javascript*                                                   Code
  – I have made a front end project with HTML, Bulma (Style)  Javascript, for improving and implementing my Frontend Skills.

- **LuckGuessGame**                                                                  *Sept/20*
  *Stack: Ruby*                                                                      Code
  – It's a word guessing game, with proper clues and conditions.

- **GameOfColors**                                                                   *May/20*
  *Stack: HTML, CSS, BootStrap and Javascript, Algorithm*                            Code
  – It's a RGB game where you have to guess colors based on their RGB value.

## KEY COURSES TAKEN

- Web Development (by Instructor Colt Steele) on Udemy
- Database Management System
- Data Structure and Algorithms
- Linear Algebra, Basic Calculus, ODE

## ACADMIC ACHIEVEMENTS

- **NEO 3.0**, Selected in Final Stage of National Engineering Olympiad                                   *2020*
- **Team Contest**, Got Global Rank 47 among 866 Teams in Code Mates x1 (Team Coding Contest)              *2020*
- **CodeChef**, Selected for Problem Setter and Tester on CodeChef                                          *2020*
- **JEE Advance**, Secured All India rank(CRL) 4734                                                         *2019*
- **JEE Mains**, Secured 99.44 percentile                                                                   *2019*
- **PRE-RMO**, PRE-Regional Mathematics Olympiad qualified from Rajasthan                                   *2018*
